

LEVEL 1 CERTIFICATE IN FABRICATION AND WELDING PRACTICE

The Course

The ABC Level 1 Certificate in Fabrication and Welding Practice has been developed in conjunction with academia and industry experts, to provide an introduction to Fabrication and Welding. The overall aim is to provide both experience and knowledge on which to base a future career and associated course decisions, and to enhance employment prospects

What the Course Leads to

What courses can I do after this?

Progression at The Project:

Level 2 certificate in fabrication and welding practice.

What do I need to apply?

There are no entry requirements; this course is for complete beginners. People with a limited amount of knowledge on the subject may join this course or use it to upgrade their knowledge. However, minimum age of entry is 16 years.

Course Content Includes:

Engineering Environment Awareness

Engineering Principles

Engineering Techniques

Manual Welding Techniques

Produce components from sheet metal & metal plate.

Key Information

Duration:

200 GLH

Attendance:

Part-time

Level: 1

Qualification Name:

ABC Awards

Awarding Body:

ABC

QAN 603/2239/1
