

Marine Engineering Level 1 (City & Guilds)

The Course

This one or two-year, part time, Level 1 Course in Marine Engineering is designed for candidates looking for a career in the marine industry.

The course is a great starting point for anyone pre-16 or over, progressing to a marine engineering level 2 certificate or an apprenticeship.

You will be working in a classroom and workshop environment where your duties will encompass many areas of work such as the identification and maintenance of marine systems. The course is tailored towards the servicing and maintenance of pleasure boats and yachts.

What the Course Leads to

What courses can I do after this?

Progression at The Project to the Level 2 Mechanical Engineering qualification or apprenticeship training.

What do I need to apply?

In full time education and a keen interest in engineering

Course Content:

Unit 101 Working in engineering
